THE ROLL OF HONOUR

OF THE

ONTARIO TEACHERS

WHO SERVED IN THE

GREAT WAR

1914-1918

1058

Issued by Authority of the Minister of Education

Printed by
THE RYERSON PRESS
Toronto.

PREFACE

THE Minister of Education, desiring that due recognition should be made of the service rendered by the teachers of Ontario in connection with the Great War, gave instructions that a permanent record should be compiled of all the male teachers of the Province who saw actual service in any military or naval capacity. The preparation of this record is in harmony with the policy pursued since the outbreak of the War. While it is not the purpose to record here any other than the military service rendered by the male teachers, it will not be amiss briefly to outline the various steps taken by official authority.

From the very outset of the War it was recognized that upon the teachers rested the responsibility of instructing the pupils in the issues and events of the conflict. In order to aid in the performance of this duty, the Department, as early as November, 1914, drew the attention of the teachers to the issues involved and directed them to take up the study of the War as part of the courses in History. Similar instructions were given each year of the War and suitable aids to the study of the subject were provided. To give further emphasis to the importance of such teaching, the study of the History of the War was made an integral part of all the courses in History prescribed for the examinations.

The call for volunteers was responded to so promptly and in such numbers by the older pupils in the Secondary and Professional Training Schools, that provision was made for granting certificates to those who enlisted before finishing their courses; the numbers thus granted academic certificates on incomplete courses due to enlistment during the several years of the War were as follows:—

1916
390

1917
154

1918
82

In addition to these, many pupils enlisted after writing their examinations and many more did so regardless of their school or examination standing. The local schools should have records of these.

Paralleling the War service of the older pupils in the schools was the splendid work done by the girls and younger boys of the schools towards increasing the production of the farms. For the three years, 1916, 1917, and 1918, provision was made whereby High School students not eligible for military service, but physically fit for service on the farms, should be allowed to complete their school courses sufficiently early in the year to enable them to engage on the farms in the work of planting, cultivating, and harvesting the crops. Here again there were very many other pupils who undertook such work, some after finishing their full courses in June, and others at the sacrifice of their year's standing. The Departmental records, however, only show the numbers of those who were granted certificates under the special provisions made. All such pupils submitted evidence of at least three months' employment on farms. The numbers were as follows:—

	1916	1917	1918
Departmental and Matriculation	1,708	3,801	3,290
High School Entrance	1,140	2,764	3,366

Teachers were also encouraged during the course of the War to give special training to their pupils in habits of thrift. Special pamphlets were issued, and these and the publications issued under the Canadian Department of Finance were distributed widely among the schools. Directly and indirectly this effort must have produced considerable results. While the inculcation of thrift has been a regular part of the educational effort of the schools, this effort was greatly assisted by the special campaigns carried on during the course of the War. It is hoped that these will continue to bear fruit in the schools by giving point to the work of the teachers in the continued encouragement of thrift on the part of their pupils. The Department also gave its approval to the participation of the schools in the successive campaigns of the Canadian Department of Finance in raising War Loans.

Mention should be made of the very extensive War work carried on in the schools and by the teachers after hours. If an adequate record could be compiled of the

work of teachers and scholars in knitting and sewing, cooking and preserving, and in the sending of comforts and reading matter to Canada's fighting forces, the total would be amazing. Nor should it be forgotten that a number of lady teachers gave up their positions and enlisted in the military nursing forces. The names of several of these teachers have been sent to the Department, but the list is so incomplete that it is felt that it would be a mistake to publish it.

In any record of War effort, however, the part played by those who enlisted for military or naval service must be given first place. Accordingly, this Roll of Honour has been prepared as a permanent tribute to those men of the teaching profession in Ontario who enlisted in connection with the Great War. At the outbreak of the War there were engaged in the schools 2288 male teachers. In addition about 250 men were in attendance at the professional training schools. Very many of these were, of course, ineligible for military service. Accordingly, the lists contained herein form no mean record of the valour and the loyalty of the teachers of Ontario. Altogether the Roll of Honour contains 848 names. The numbers of those who were called upon to lay down their lives for the cause to which they so freely gave themselves is 101, and of the others 210 were wounded. The decorations either awarded to teachers, or for which they were recommended, total 78. Special lists of those killed and of those winning decorations will be found herein.

In compiling the Roll of Honour the following steps were taken. Reports were invited from the enlisted teachers themselves, from members of their families, from their friends in the profession, from Inspectors and from Principals of Training and High Schools, and the military records at Ottawa, those kept at the local headquarters in Toronto, and the lists of the several Universities were consulted. In a few cases the information is still incom-

plete, as repeated efforts have failed to secure the full particulars. It is also recognized that in spite of the wide publicity given to the preparation of this Roll, including the distribution of the Provisional Roll to all known to be concerned, there are probably some eligible for inclusion whose names have not been reported.

It is worthy of note that over 355 of those listed in this Roll are reported as having returned to the teaching profession since their discharge. In addition, a special list will be found at page 67 of 226 other returned men who have been prepared for the teaching profession by special courses arranged for them by the Department during the summer of 1919, and the winters of 1918-19, 1919-20 and 1920-21.

The information given in the Roll is arranged in the same order for all names entered. The information concerning each is written in two parts. The first part in roman type gives the name in full, the home address, the certificate held, and the professional position at the time of enlistment. The remainder in italics gives the record of military service in the following order: date of enlistment, final military rank and the last military unit, the country in which the teacher served outside of Canada, casualties and decorations, if any, with the dates and names of the engagements associated therewith, and finally the date of discharge. The following example will illustrate:—

POYSER, BEECHER DORAN, Iroquois; II, s. Ottawa N.S.;
*1/12/15, Capt., 4th C.M.R., Fr., M.C. Passchendaele, Wounded
3/8/18, Dis. 29/3/19.*

This record indicates that Beecher Doran Poyser, whose home address was Iroquois, held a Second Class certificate (II), and was a student (s) at the Ottawa Normal School (N.S.) at the time of enlistment, which was December 1st, 1915. His final military rank was that of Captain in the 4th Canadian Mounted Rifles, in which he served in France. He was awarded the Military Cross at Passchendaele, and

was wounded on August 3rd, 1918. He received his discharge on March 29th, 1919. When the kind of school is not indicated at the end of the first part in roman type, a public school is to be understood.

In conclusion, it is hoped that no serious errors will be found herein. The information from which the Roll has been compiled was gleaned over so long a period and from such varied and numerous sources, that mistakes are inevitable. Those that are reported to the Department will be gladly corrected on the official copy, but it is not the intention that a further revision of this Roll shall be undertaken for distribution.

R. W. ANGLIN,
Registrar, Department of Education.
Toronto, June 1st, 1922.

The Honoured Dead

THEY WHOM THIS SCROLL COMMEMORATES WERE NUMBERED AMONG THOSE WHO, AT THE CALL OF KING AND COUNTRY, LEFT ALL THAT WAS DEAR TO THEM, ENDURED HARDNESS, FACED DANGER, AND FINALLY PASSED OUT OF THE SIGHT OF MEN BY THE PATH OF DUTY AND SELF-SACRIFICE, GIVING UP THEIR OWN LIVES THAT OTHERS MIGHT LIVE IN FREEDOM. LET THOSE WHO COME AFTER SEE TO IT THAT THEIR NAMES BE NOT FORGOTTEN.
